HARDING IN SPEECH

Monument To Old Patriot
Is Made Shrine Near
Fort McHenry.

(By the Associated Press)
BALTIMORE, June 14.—Francis Scott Key's Memory, honored with the unveiling of a monument to him, erected by congress near the spot of the historical Fort McHenry over which floated the "Star Spangled Banner," immortalized by his poem, made the fort the mecca of throngs which gathered there long before the hour fixed for arrival of President Harding, who was to accept the memorial for the nation.

Motoring from Washington, the presidential party was to be met at the city line by Mayor William F. Broening and members of the reception committee and after a short tour of the city, preceded to the Emerson hotel for luncheon. The hour set for the ceremonies to begin at the memorial was 4 o'clock but the president was expected to reach Fort McHenry earlier and visit disabled soldiers at the Public Service hospital.

Betsy Ross Honored.
PHILADELPHIA, June 14.—Patriotic exercises in front of the quaint old home of Betsy Ross, marked the principal Flag Day observance in this city. Preceding the ceremonies there was a parade in which members of nearly every veterans' organization and historical society took part.

This city claims not only the distinction of having produced the first flag, but also the citizen who conceived the idea of Flag Day, J. Granville Leach, member of a distinct Philadelphia family, who is credited with having suggested having June 14 set aside for special reverence of the flag. He died two weeks ago. He and Betsy Ross were subjects of eulogy for orators today.

President Arrives.
BALTIMORE, June 14.—President Harding reached here at 2:15 this afternoon to attend the ceremonies in connection with the dedication of a memorial to Francis Scott Key and the defenders of Fort McHenry.

He was met at the city limits by a delegation of city officials and citizens and the presidential party was escorted into town through lines of flag waving and cheering school children.

General Wu Pei Fu, the outstanding figure in China by reason of his recent defeat of Chang Tso Lin, the Manchurian leader, has been chosen minister of war in the Peking cabinet.

Dr. Wang Chung Hui, a lawyer of international reputation, will be President Li's minister of justice.

(By the Associated Press)
WASHINGTON, June 14.—The campaign to raise \$1,650,000 for the creation of a memorial park on the site of the first and second Battle of Manassas was formally opened yesterday when the committee that has the matter in charge met here and organized teams to work in sixteen states.

William G. McAdoo, former secretary of the treasury, headed the list of contributors with a donation of \$1,000.

While essentially a southern memorial, the park will include a monument "to the brave dead and wounded of both sides," according to present plans.

2-DAY CARNIVAL PLANNED IN ADA

City To Stage the Greatest
July 4 Celebration in
Its History.

Ada's largest celebration is being planned for July 3 and 4. The two-day festival is being planned by the Ada Retail Merchant's Association and the Ada Athletic Association and will be held at Glenwood park.

Some features of the celebration will be Boy Scouts Day, July 3, in which hundreds of scouts will participate in contests and patriotic exercises; band concerts daily by the Athletic Association band; and dancing each evening beginning at seven o'clock at a pavilion to be constructed at the park.

A big barbecue at which food for 15,000 people will be furnished, will feature the second day's program. It will be given by merchants of the city. In the afternoon a baseball game between Pauls Valley and Ada will be played at Fair Grounds Park. Dancing and band concerts, with public speaking, will be on the second day's program.

Cooper to Fight.
On the night of July 4, Arch Cooper, local pugilist, will go ten rounds to a decision with Jack Kearns of St. Joe, Mo., with 20 rounds of preliminaries by Jack Dempsey Sparks, Sailor Adair, Jonnie Baker, and Dutch Stone participating. All these promise to be good and Cooper will be seen in his first ten round engagement.

Amusements for all classes will be provided at the park, the committee in charge reports. Preparations are being made to advertise the Ada celebration all over this section of the state in order to bring Fourth of July pleasure seekers to the city. Committeemen were confident today that it will not only be the largest celebration the city has ever held, but will be the largest ever held in this part of the state.

This is the first time in several years that a united effort has been made to hold an extensive Independence Day celebration in Ada.

He has been employed for that length of time by local men and will open his campaign Saturday at Roff. After that he will give demonstrations of his method anywhere in the county and will go wherever he may be called.

Mr. Dial's work will in no wise conflict with that of Agent Hill, the News is informed, but is expected to supplement his efforts. There is no doubt about some weevils being present now and every possible effort to reduce the amount of their damage will be made this season.

Bill Would Refuse Federal Money for Ships With Liquor

(By the Associated Press)
WASHINGTON, June 14.—Announcement that he would offer an amendment to the ship subsidy bill providing that no part of the money appropriated should be allotted to steamship lines on which liquor was sold, without special authority of congress, was made today by a western republican member of the house, who declined to permit the use of his name at this time.

Reports were current that a large number of siclar amendments were being prepared by prohibition leaders, who agreed that if put to a vote, it would be passed by the same majority received heretofore on all straight wet and dry issues, thus settling until a possible decision by the supreme court, the whole question of whether the Volstead law should follow the flag.

Half of Oil City Is Destroyed By Fire Early Wednesday

(By the Associated Press)
FORT WORTH, Tex., June 14.—Fire starting late Tuesday night destroyed more than half of Oil City, Tex., inflicting damage estimated at \$150,000 before it was brought under control early this morning. The blaze started in Puckett's boarding house on Front street and swept all before it. There was just enough wind to make fighting the flames difficult. First word of the fire reached Ft. Worth about 1:30 o'clock this morning when A. E. Ryan, owner of the Owl Drug store, received a telephone call from Graham that his store had been destroyed.

ILLINOIS OPERATORS TO DEAL WITH OWN MEN

(By the Associated Press)
CHICAGO, June 14.—Illinois coal operators announced definitely today that they would only deal with their own employees in any future wage conference, declaring that the time has passed when a joint conference with operators in other states is desirable. The announcement constitutes a refusal of the movement of certain eastern operators to open joint negotiations looking towards the ending of the mine strike.

City Observes Birthday of Old Glory

BOY Scouts led the city today in observance of the 145th anniversary of the birth of Old Glory. The national colors streamed from many house-tops here today as the result of vigilance on the part of scouting officials in commemorating Flag Day.

Americans rightly claim that the Star Spangled Banner is the most beautiful flag in the world, and it symbolizes the union of the greatest Republic on earth. It stands for all that is just, true and progressive in National Government. The American flag has been unfurled in more movements for the protection, the liberty and the elevation of men than any other flag that ever waved triumphantly on the wings of the wind. Not counting the changes that have been made in the number of stars which brighten its blue field, our flag is older than that of any other nation. It is the one banner that has never waved on any battle field or ship of war but for the single purpose to defend and uplift mankind.

The following simple rules should be observed by every one to show proper respect for the flag.

It should not be hoisted before sunrise nor allowed to remain up after sunset.

At retreat, sunset, civilian spectators should stand at attention and on the last four strains of the music uncover, holding the headress top upward, in the right hand, opposite the left shoulder, right forearm against the breast.

When the National Colors are passing on parade or review, the spectators should, if walking, halt, and if sitting, rise and stand at attention and uncover.

When the flag is flown at half mast as a sign of mourning it should be hoisted to full staff at the conclusion of the funeral. In placing the flag at half mast, it should first be hoisted to the top of the staff, and then lowered to position, and preliminary to lowering from half staff it should be raised first to the top.

On Memorial Day, May 30, the flag should fly at half mast from sunrise until noon, and from noon to sunset at full mast.

The flag should never be used for a tablecover or for advertising purposes.

"FATTY" PICTURES ARE BANNED BY ENDEAVOR

PONCA CITY, June 14.—Resolutions upholding the action of Will H. Hays in prohibiting the showing of Roastee (Fatty) Arbuckle pictures in the United States, were passed here last night by the Christian Endeavor Union of Oklahoma in final session. Selection of the next convention city was passed over until September.

LEGION MEN MAY HAVE ADA TRAIN

Local Post Plans To Send
300 Men To Convention
At New Orleans.

"New Orleans or Bust" was the slogan and war cry adopted last night by Norman Howard post of the American Legion as it opened extensive preparations for sending a special train, carrying between 200 and 300 former service men, to the national convention at New Orleans early in October.

Clint Miers was appointed special treasurer for a fund to be raised by members of the post, to be used in paying for the train. Scores of men in the post expressed themselves as eager to form a "New Orleans or Bust" club and to pay in a small sum each month until time for the convention in order to assure the special train.

At the next regular meeting of the post, full details of the plan will be explained and all legion members given a chance to get behind the movement.

200 Ready in City.

At least 200 men should be willing to go from Ada, Gilbert F. Polly, post commander, estimates, and approximately 50 others can be secured from Roff, Francis, Stonewall, Allen and other points in the county. Holdenville is also eager to cooperate in arranging the train and send a large group of delegates to assure it if necessary, local members of the legion have been assured.

Cost of a round trip ticket to the New Orleans convention will be about \$12, post officials said. This can be materially cut, it was explained, if enough men sign up to go on the special train.

Posts in practically every state already are laying plans for sending hundreds of men to the old southern city in October. Many have formed "horse and buggy" clubs and others are planning to charter box cars and cattle cars to carry their representatives.

INDIANA MINES CLOSED BY MOB TOURING STATE

(By the Associated Press)
TERRA HAUTE, Ind., June 14.—A crowd estimated at 400 persons left here in automobiles this morning after announcing their intention of closing every coal mine in operation between here and Brazil, ten miles east.

The first stop made by the party was at the Hones mine near Stanton, where two truck loads of coal were seized and dumped into the road, according to reports here.

Steel window shades that will drop when the display window glass is broken have been installed in some western stores to foil burglars.

SHIPS DISPENSE LIQUORS FREELY UPON HIGH SEAS

Former Brewer Says That
Shipping Board Boats
Are Floating Bars.

"WETTEST ON OCEAN"

But Board Answers Charge
With Definition of the
Prohibition Act.

ST. LOUIS, June 14.—A letter charging that the United States is "the biggest bootlegger in the world," written by August Busch, president of the Anheuser Busch, Inc., while en route to Europe aboard the steamship, George Washington, and which has been forwarded to President Harding, was made public here today, together with an accompanying letter by Adolphus Busch III, his son. A third letter by Anheuser Busch, Inc., addressed to members of congress requested an investigation into the enforcement department in relation to the prohibition act.

The letter of August Busch, addressed to his associates, says in part:

"We are now approaching the coast of France. As this vessel is operated by United States Shipping Board I am amazed to learn that shipping board vessels are the 'wettest on the ocean.'"

"I have learned that passage on the ships has been sold with positive money back guarantees that bars for the sale of liquor will be thrown open as soon as they pass outside the three-mile coast line.

"This makes the United States incomparably the biggest bootlegger in the world."

Was "Ally to Kaiser."

A second letter on the subject of the sale of liquor on vessels of the United States shipping board will be sent to Chairman Lasker of the board in a few days, by the Anheuser Busch, Inc., it was announced today. The letter will deny the allegation or Chairman Lasker that the late Adolphus Busch was "possibly the Kaiser's firmest friend in America," it was declared.

The letter will state that Anheuser Busch's organization reserved the right to protest when the United States government buys German beer to sell on its ships and will not let American beer be made, the announcement also asserted.

The announcement amplified that "if the government decides to make an investigation of this matter, we will establish, through a reliable witness, that Mr. Lasker has said that he went to President Harding with the whole matter and told him that the sale of liquor on shipping board ships would help to solve the board's financial problems, and that he said that President Harding replied to him:

"Mr. Lasker, you are chairman of the shipping board; you know what to do."

Don't Apply There.

WASHINGTON, June 14.—The shipping board holds that neither the Volstead act nor the 15th amendment applies to American ships outside the three-mile limit, "so long as liquor is kept aboard for sale to passengers only after it passes the three-mile limit."

Chairman Lasker says in a letter to the vice-president of the Anheuser Busch, Inc.

Mr. Lasker's letter was in reply to a communication from Mr. Busch to President Harding with reference to alcoholic drinks being served on board shipping board vessels at sea. The matter had been referred to him, the shipping board chairman said, "since the president is unacquainted with the subject you cover."

While it was true, Mr. Lasker said that an assistant attorney general "in the prior administration" had held that the prohibition laws were effective on American ships were ever operated, the present general counsel of the shipping board, his two assistants, and the chairman himself, were convinced that such an opinion was not soundly based and had approved of drinks, including wines, on fares of ships operating under the board supervision for the United States, although only beyond the coastal lines.

As it will be impossible for me to see each one personally, I wish to take this means of thanking my many friends who cast their votes in my favor. The Model store that I liked was the beautiful Hartman wardrobe trunk.—Leta Brown. 6-14-11

BIBLE THOUGHT OF TODAY

TRUST AND WAVER NOT:—Trust in the Lord with all thine heart; and lean not unto thine own understanding.—Pv. 3:5.

NEW CONCEPTIONS OF KNOWLEDGE.

The fields and the methods of human knowledge are changing today with a rapidity which outstrips even the scientific observer himself. While the great majority of people go on thinking in the old way, under the old rules and with the old limitations, those in the advance guard see barriers falling everywhere. Not one of them is bold enough to speak in the categorical tone which once was usurped by the clergyman and was then filched from him and used with even greater arrogance by the scientist.

Note a recent striking evidence of this. The civil engineer is by profession a man who deals with hard and fast facts. There is nothing sentimental or speculative about his business. Yet the President of the American Society of Civil Engineers said recently, in addressing that body on the progress of scientific thought and investigation, "the impossible of today is the commonplace of tomorrow." And, according to press reports sent out, he added to this some intimations that the most surprising revelations of the future, in a really scientific sense, would lie along the line of the development of physical powers.

To all but the very blind this trend of modern thought has been quite evident for a long time. Physical science has divided and redivided and analyzed matter until it has nothing left but energy and motion, which are just as impalpable by themselves as ghosts or materializations. It has reached the same starting place with the world of phychic force. Scientists and spiritualists are contending for the world of "ether" which they both claim, and which they describe in precisely the same terms. And meantime the world wonders which science acknowledges as its own goes on enlarging every day.

It is a great gain to get this new and great conception of the scope and nature of human knowledge. Denial of the validity of the spiritual is as bad—in many ways worse—than denial of the validity of the material. The two are fundamentally one. And presently we are going to know much more about both.—Muskogee Phoenix.

TOWN AND COUNTRY SHOULD PULL TOGETHER

The Ardmoreite is backing an aggressive campaign to bring Ardmore and surrounding country into closer relations. This is a move in the right direction and might be followed to advantage by other communities. There is every reason on earth why town and country should be on the most cordial of terms and no reason why there should be any feeling of antagonism. The fact that a man lives either in town or the country does not change his status, he is just the same man he always was. It is the man and not the locality that counts. Advantages by the dozen to both sides may accrue to both sides by co-operating, but certainly no advantage is to be derived from petty jealousies. A long step forward was taken during the war when all classes put their shoulders to the wheel and pushed together, but all some little feeling crops out occasionally where none should exist. The great difficulty in arriving at a more cordial understanding has always been the peanut politician and soap box agitator who have sought to array class against class in their efforts to carry their selfish purposes. It is not hard to persuade any man that he is the under dog in the fight and when this is done the seed of distrust is sown that yields a bitter fruit.

A Washington correspondent predicts the passage of the bonus bill by the senate, but says it will not go through in a hurry as both advocates and opponents will want to get something in the congressional record to let the voters at home know how they stood and why.

The Chinese carry their ancestral worship far beyond any reason, but their loyalty to their parents is highly commendable. A man owes a duty to his parents which he must discharge by going his limit in caring for them and there is no such thing as sending the old folks to the poor house to get them out of the way.

Political henchmen who are always on the lookout for a place at the banquet tables of the occupants of the band wagon are having a hard time just now to distinguish the bandwagon from the hearse. A mistake of this kind means a long stretch of lean picking for the bad guesser.

Some years ago a candidate for governor of Oklahoma made "Sunshine and Prosperity" his slogan. That would be a made "Sunshine and Prosperity" his slogan. That would be a and the optimists see prosperity turning the corner headed this way.

Paving operations will give employment to a number of men; the work on the memorial hall will employ a fair sized force, and with the cement mill enlarging its operations and some building going on in the city, things are looking better all the time. Ada has always managed to come out on top.

"TWO SOULS WITH BUT A SINGLE THOUGHT"—

The Forum of the Press

Education in Patriotism

(McAlester News apitol)
A crowded street. Soldiers. The color guard. A command "Hats off". Two men on the curb covered—grinning. The command repeated. Still they grin. An officer jumps from the ranks followed by sailors from the guard. Smash! Crack! Down came the hats in confusion, the owners standing hands in pockets—grinning.
That's what Oklahoma City saw Memorial day. Those who saw it cheered. The grinning—grinned. Perhaps those men went to France. Perhaps they went into the trenches. Perhaps they saw the men besides them fall. Perhaps not. More probably their contribution to the cause consisted in grinning, says the Daily Oklahoman.

Everywhere it is nearly the same. Yesterday, a young man born and reared in this city, who died in the uniform of an American soldier at an eastern camp, was buried in the family burial plot. His body in flag draped casket was taken from an undertaking establishment with an escort of former service men, the color guard bearing an unfurled banner of old glory.

It was a pitiful few along the route who had presence of mind enough or sense enough to bare their heads as the colors passed. It's just a little less than four years now since the armistice was signed. The past drops away quickly in the turmoil of the present and the uncertainty of the future.

"Lord God of hosts,
Be with us yet.
Lest we forget
Lest we forget."

We have some mighty high up citizens who seem to have never become familiar with the rule of saluting, else lack woefully a spirit within their hearts that makes best citizenship. No man is mighty enough to ignore courtesy to the flag and the local post of the American Legion expects when autumn term opens at McAlester school, to ask Superintendent Masterson to incorporate a more intensive course of instruction along this line to the children and they in turn may teach some of the elders what patriotism demands.

Let Americans always show respect to the flag they live under, and under which their young men offered sacrifices.

Let's be a patriotic community.

June in the City, Too.

(Kansas City Journal)
Those poetic minds who have gone strolling with the muses and set down the virtues of the month of June have always stuck close to nature. There are "hidden brooks in the leafy month of June," and there's a "red, red rose that's newly sprung in June." Seldom have they been inclined to isolate the unique qualities of the particular month and apply them to the city, where the hidden brooks are ordered filled by the sanitation experts, and where the red, red roses sell at so much per dozen. But the same calendar is used in the city as elsewhere. It's June here, too.

The city dweller observed that the tinkle was really musical as he dropped a nickel and three pennies in the street car cash box this morning. Looking around, he finds that the flapper who nearly always takes the same car, has been just a little more careful than usual in putting on the rouge. The obese gentleman who is always reading the market page appear comfortable in his summer clothes, and he is not disturb-

ed by the friction of his collar against his double chin. The conductor, as he is handed a dollar bill for a fare, continues to look pleasant as he pulls on the crank that closes the door. The grind of the wheels below isn't as irritating as usual. The city dweller doesn't wonder at the change. He knows it's June.

Arriving at the office, he finds that the janitor has left the curtain a little to slow. Careless janitor! The city dweller raises the curtain and the sun comes in. There is a fresh blotter on the desk. The stenographer is becoming in a white dress. The first caller of the day uses an excellent brand of cigars. The breeze rustles the mail, and a letter falls to the floor. It's from a firm that's been owing him. The ice water in the cooler is invigorating. Everything is fine. It's a great day. It's a gentle world.

June, the gentle old month, has saved out a caress for the city, which she bestows with affectionate tenderness. But it won't be long before she departs, and wilted collars, perspiring faces, and humming, ineffective electric fans will be the order of the day.

Anyway, it's June now.

Mars is a world of blue skies and bright sunshine, according to astronomers.

What They Say

Some People Who Are Fighting the Ku Klux Klan.

The following article appeared on the first page of the Oklahoma City Times on Tuesday, June 13th:

NEGRO LAWMAKER IN CHICAGO FIGHTS KLAN WITH ORDINANCE DESIGNED TO MAKE "DISGUISE" ILLEGAL

CHICAGO, June 13.—Robert R. Jackson, a negro alderman introduced an ordinance in the city council Monday striking at the Ku Klux Klan. His ordinance would punish anyone appearing in "disguise" with a fine of \$200 or a jail sentence. "There is a good reason for this ordinance," said Jackson. "It was only a couple of weeks ago that the Klan appeared outside the southern limits of the city and frightened a lot of people."

Most of Chicago's negroes live on the south side of the city. The judiciary committee approved the ordinance.

Robert R. Jackson, negro alderman

referred to is reputed to be Mayor Thompson's floor leader in the Chicago city council. Mayor Thompson was brought into National disrepute during the world war by catering to the foreign vote, and was recognized as a German sympathizer. No wonder he and his colored friend are fighting a purely American organization.—Robt. Wimbish.

Mrs. Crawford—I don't see how she's going to benefit by having her husband sent to jail.

Mrs. Crabshaw—She admits that she won't get any money out of him, but she'll have the satisfaction of knowing where he is at nights.

Edith—I don't see why you liked that group picture of our society. It wasn't particularly good of you. Isabel I know it, but it had such a perfectly horrid portrait of that conceited Miss Gushing. —Boston Transcript.

\$365 IN PRIZES FOR BEST RHYMES

A new contest is just being started which will interest everyone who reads this paper. Anyone can enter this Contest—anyone can win! All it is necessary to do is to write a 4-line rhyme on Dr. Price's Phosphate Baking Powder, using only the words which appear on the label of the Dr. Price can (front and back).

Isn't that easy? Everyone likes to make rhymes and here is a chance to spend a fascinating hour or two writing rhymes on this popular Baking Powder and perhaps winning a substantial prize for your efforts.

27 CASH PRIZES

For the rhyme selected as best a prize of \$100 will be given; for the second, third and fourth best rhymes prizes of \$75, \$50, and \$25, respectively will be given. And besides these prizes there will be 23 prizes of \$5 each for the next 23 best rhymes. With such a long list of prizes as these, it would be a pity not to try your hand. Here's a 4-line rhyme as example:

*Biscuits, muffins, pie or cake,
With Dr. Price's Powder bake,
The Price's Co., guarantee
No alum in the cans to be.*

As Dr. Price's Phosphate Baking Powder sells for only 25 cents a 12 oz. can, some rhymes could play up the great economy of this pure and wholesome baking powder.

All rhymes must be received by July 1, 1922. Only words appearing on the label of the Dr. Price can (front and back) may be used. These words may be used as often as desired, but no other words will be allowed. If you haven't a can of Dr. Price's, you can see one free at almost any grocer's. It is not a requirement that you purchase a can in order to be eligible in this Contest.

Anyone may enter the Contest, but only one rhyme from each person will be considered. In case of ties, the full amount of the prize will be given to each tying contestant. Write plainly on only one side of a sheet of paper and be sure to give your name and address. Send your rhyme before July 1st to Price Baking Powder Factory, 1005 Independence Blvd., Chicago, Ill.

FORMER GOVERNOR AND WIFE TO BE RIVALS IN TEXAS PRIMARIES

(By Central Press)

AUSTIN, Tex., June 14.—Both ex-Gov. James E. Ferguson and his wife are seeking the Democratic nomination for U. S. Senator from this state. Their house is not divided against itself, as one might think, however. They are teammates, not rivals.

Ferguson is afraid he will be barred by his party because he did not support their candidates at the last election (as a state law demands). If he should be barred, Mrs. Ferguson will run and will take her husband to Washington with her as her secretary. If he is not barred she will retire from the race.

"It is merely a matter of playing safe," says the ex-governor.

Several years ago Ferguson was impeached while governor and he then formed the American party in Texas, which he supported in the last general election. A state law providing that a Democratic candidate must certify that he supported the Democratic party's candidates in the last election may be the obstacle in Ferguson's way. He can not certify this, but his wife cannot be barred on the same grounds because she voted the Democratic ticket. Another provision of the law says that if a candidate gets twenty-five citizens to petition to have his name placed on the ballot the state committee may place him in the field.

Ferguson has done this, but he fears that even with his precaution his name may not appear, and so because he has no money to fight his case in the courts his wife is going to run too. If he wins she

BILIOUS CHILDREN

Black-Draught, Long in Successful Use, Praised by an Arkansas Mother, "Soon Does Its Work."

Marmaduke, Ark.—Speaking of Theodor's Black-Draught, which from long use in her household has become regarded as "the family medicine," Mrs. Mary E. Hill, of Route 1, this place, says:

"When the children get bilious, I give them a couple of good doses, and when we have sour stomach, headache, or any liver or stomach trouble, we use Black-Draught. It is an easy laxative and soon does the work. I certainly think it is one of the best remedies made."

Black-Draught acts on the faded liver, gently, but positively, and helps it in its important function of throwing out waste materials and poisons from the system.

In thousands of households Black-Draught is kept handy for immediate use in time of need. Prompt treatment often is half the battle, and will often prevent slight ills from developing into serious troubles.

Its well-established merit, during more than 70 years of successful use, should convince you of the helpful effects obtainable by taking Black-Draught for liver and stomach disorders. Get a package today, and keep it in your house. See that the package bears the words, "Theodor's Black-Draught." NC-141

S. S. S. Fills Out
Hollow Cheeks,
Thin Limbs!

Men and women, whether you will ever build yourself up to your natural weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood-cell count isn't working right you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads, and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood. That's why S. S. S. builds up thin, run-down people. It puts firm flesh on your bones. It rounds out your face, arms, neck, builds the whole body. It puts the "pink" in your cheeks. It takes the paleness from the eyes, and it tones the liver time by smooching out wrinkles in men and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. Whiteheads, acne, blackheads, acne, rheumatism, neuralgia, blotches are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores in two sizes. The larger size is the more economical.

COORDINATION IS SUCCESS FOR ADS

Manufacturer and Dealer Should Co-operate in Selling Products.

(By the Associated Press)
MILWAUKEE, Wis., June 14.—Co-ordination of manufacturers and dealers in advertising was recommended at the Convention of Associated Advertising Clubs of the World here today by O. C. Harn, advertising manager for the National Lead Company. "The manufacturer knows his product as no one else can," said Mr. Harn; "he should be able to present its good points in the most convincing manner. The dealer on the other hand has the local contact and the prestige. He can repeat the manufacturer's message with a local emphasis which is very telling."

Mr. Harn declared that in the majority of cases money often spent in expensive literature "would be much more effectively used in buying more newspaper and magazine space and in co-ordinating the work of the distributor with the newspaper and magazine advertising." He conceded that in the case of the concern which has a rather complicated or unfamiliar product the "need for intensive education probably justifies intensive and extensive follow-up."

Flaws Are Shown.
"There is only one thing in advertising practice," said Mr. Harn, "as bad as neglect to co-ordinate the various advertising forces which one is using and that is to leave entirely unused some form of advertising or sales effort which would render what we are doing much more effective."

"There was some excuse in the early days for the advertiser to be ignorant as to whether he was buying the advertising force which his plans called for and which he aimed to buy. Since the advent of the Audit Bureau of Circulations a few years ago, there has been no such excuse, at least in so far as the buying of newspaper and other periodical space is concerned. And here I wish to pay a tribute to this publishers of newspapers, magazines, farm papers, business papers and other periodicals who at the request of advertising set aside their individual ideas and preferences on many points and joined with the advertisers and agents to solve an intolerable and ridiculous situation. Advertisers and agents owe it to these publishers to select these publishers as against those who refuse to co-

WOMEN ABSORB MORE SOUND IN HALL THAN MEN

(By the Associated Press)
CHICAGO, Ill., June 14.—Women's modes have a direct effect on auditorium acoustics, according to Prof. F. R. Watson of the department of physics of the University of Illinois. "Speaking and singers can be heard more easily when their audience is composed chiefly of women than when it is preponderately masculine," he said. "This is because women, as experiments have shown, absorb more sound than men, owing to the clothing worn."

Prof. Watson, who analyzed the acoustic properties of the Municipal Pier here, and whose recommendations for improvement were adopted by the city authorities, has devised an instrument that simplifies acoustic analyses. It is an arc-light reflector, which sends its hissing together with a beam of light to inaccessible ceiling surfaces to determine the presence and paths of all echoes. As the sounds and the light take the same path, the light indicates the point in the ceiling surface where the sound strikes, and the angle of sound reflection is then mathematically computed. A standard organ pipe is blown and the time taken for the sound to die out is measured with a stop-watch.

Walls Don't Absorb.
"The usual trouble in an auditorium," said Prof. Watson, "results from the fact that the walls do not absorb sound to any great extent, and consequently the word uttered by the speaker takes a long time to die out. In the mean time other words are spoken that become confused with the sound of the first words. In some cases curved walls produce echoes and concentrate the sound in unexpected ways. Sound-absorbing materials are the usual corrective; cushions in the seats are quite efficient, but in some cases the hair felt should be placed on the walls. The amount of felt needed is readily calculated from the acoustic properties of the room."

"In a small room there is almost never any difficulty, but in large rooms the troubles increase, so that it is necessary to add sound absorbing materials in addition to the natural furnishings. The closer the walls are to each other, the more numerous are the reflections of sound per second, and the more rapid is the absorption of sound. "Sound travels from a speaker at the rate of about a fifth of a mile a second. It is reflected from the

walls of a room and very rapidly fills the entire volume. Because its action is a mystery to many laymen, though the theory has been carefully worked out by scientists, wrong ideas have grown up about acoustics.

"Forexample, as much as seven miles of wire has been strung in an auditorium although wires as a practical corrective for acoustic difficulties are useless.

Mr. G. B. Beller, near Center, who died June 2, was buried at the Moss cemetery Sunday afternoon by the Masonic fraternity of Center, of which he was a member. They were assisted by members of the Vanoss lodge. A large crowd was present. Gladys Buzbee of Elks City who has been visiting here left for Ada where she will spend a few days with Mrs. Myrtle Thomas. The farmers of this place are just about up with their crops. Little Autry and Oleta Yancey were visiting Dot Copeland Sunday. Mrs. J. E. Sutherland of Vanoss visited Mrs. J. J. Copeland Sunday. A large crowd went to the lake boat riding Friday night. All reported a nice time. Miss Neomah Eddings was shopping in Ada today.

MRS. GREEN IS READY TO TALK ABOUT HER CASE

St. Louis Woman Praises
Tanlac For Her Fine
Health and Says She Will
Verify Statement To Any
One.

"The way Tanlac has rid me of my troubles is simply surprising," said Mrs. L. T. Green, 3329 Lemp Ave., St. Louis, Mo. "My stomach had pulled me down to such a weak wornout condition I could hardly drag around. I had scarcely any appetite, was very nervous and worried and my sleep was so restless it did me little good. I had terrible headaches, was dreadfully dizzy-headed and had awful pains across the small of my back. "But Tanlac put me in the best of health, the stomach trouble has entirely disappeared and I never have an ache or pain. I will be glad to verify this statement to anyone, for I think Tanlac is a grand medicine." Tanlac is sold by all good druggists.

Ada Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of an Ada citizen:

Almon Griffin, 12th and Cherry Sts., says: "I have all the confidence in the world in Doan's Kidney Pills. There have been times when I have had severe attacks of pain in my back, just across my kidneys. Every move I made was a torture. I have taken Doan's Kidney Pills for these spells and they have never failed to relieve me. I am glad to give them my hearty endorsement."

Gets Pleasant Surprise

"About 6 months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was gall stones. All agreed an operation necessary, but on account of his age I was afraid to risk it. I told a friend about it who said his wife had been through the same trouble and had been cured by taking May's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a bear and can eat more ham and cabbage than any 3 men." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. Farmers' Column

By Byron Norrell

The Ardmoreite says that Carter county is preparing to carry on a hard fight against the boll weevils. An effort will be made to secure the service of a government entomologist to direct the work and advise the cotton growers. Indications are that if the weevil gets all the cotton this year he will know he has been in a scrap, for farmers everywhere are up in arms and are determined to make some cotton, weevil or no weevil.

Late Cotton Cultivation

Hot weather and pressing duties in the saving hay and other matters often cause cotton growers to neglect the cotton when one more cultivation is urgently required. "Laying-by" cotton too early has cost growers more than most of them realize. The facts are that most seasons the ground needs stirring at this time; weeds are at a stage when they should be killed; boll weevils' work may be arrested to some extent; young forms may be allowed to mature by another thorough cultivation.

The stalks may be so rank that the two-horse cultivator cannot be used. A one-horse junior cultivator may be very serviceable for this purpose. Sometimes one time between two rows is sufficient for the last cultivation. Or it may take two trips or around for a row. Again it may be that a sweep on a one-horse stack will pay. That will depend upon the vegetation and the condition of the soil.

One should not run too close to the branches and roots of the cotton plants at this time. Care should be used not to cultivate too deep. Make a shallow soil mulch.—Farm and Ranch.

Fall Irish Potatoes

Fall Irish potatoes are a very convenient crop where one has good land and can secure enough moisture to grow the tubers. They always depend upon the preparation of the land as well as the selection. The safest plan, according to the writer's experience, is in fine condition to begin with. They cultivate the land several times before the tubers are planted to conserve moisture and prevent weeds from growing. A small area sufficient to produce potatoes for home use may be kept in fine condition without much labor or expense, and the convenience of having potatoes when wanted during the winter is well worth striving for.

Not all varieties do well in the fall. According to previous experience the writer has found that Look-out Mountain and Peach Blow are suitable for fall crops. The last mentioned variety has done exceedingly well. Rural New Yorker is said to be a fair variety for fall. Triumph is not as good as the others mentioned, but it will do if one can sprout the tubers. A fairly good plan is to set a cool place and cover the tubers with straw or leaves, then keep them wet for a week or ten days or until they begin to sprout, then plant them.

SLUGFEST GIVES LEGION VICTORY

Service Men Defeat Local
College Nine 7 to 4 in
Loose Battle.

For the first time since the city league opened its schedule a slugfest has been enjoyed by the players. Pitchers were not in their usual form yesterday and the American Legion sluggers gleaned nine hits from Toliver, one being a home run by Rutledge, and defeated the College 7 to 4.

Ligon, who struck out nine men in four innings a week ago, was knocked from the box by the College in the fourth and fifth and Walter Wray, star first baseman for the Legion, took his place. After retiring the College in the fifth, Wray pitched fast ball in the last two innings, not allowing a hit.

Two star catches in the field by Thussen also featured the Legion playing. Thompson's College men were in better form at batting yesterday than ever before, but their fielding was poor. Two runs in the third were made through misjudgment of the college players. Base running honors went to Wallace who after getting a single, stole second, took third on the next throw and was standing a few feet from the plate ready to score when Sloan hit out a nice single. He chalked up the first run for the college.

The home run knocked by Rutledge was the longest hit on College field this year and was the first homer of the league season. Auld and Burkhardt went on a batting spree yesterday, each getting three bingles out of four trips. All college runs were earned, the men hitting in pinches while the Legion men were given three of their scores.

Ex-President Roosevelt was awkward and stupid as a boy until he suddenly discovered he could not see as well as other boys.

He tells us that glasses changed his career. Most backward children have defective eye sight.

No boy or girl can do well in school who can not see distinctly.

With correctly fitted glasses nine out of every ten improve immediately in school work.

Success in school promises success in later life. Have your child's eyes examined at the first indication of trouble.

VIEWS COURT AS BOSS OF NATION

LaFollette Would Reduce
Power of U. S. Supreme
Bench of Nine.

(By the Associated Press)

CINCINNATI, June 14.—Asserting that by "promotion of great enterprises" the country's federal courts have "grasped the sovereignty of the people," Senator LaFollette of Wisconsin, speaking here today before the American Federation of Labor convention, proposed a constitutional amendment, denying the lower courts power to set aside a federal law as unconstitutional and providing for supreme court nullification of any such decisions by reenactment of the statutes.

Citing the recent decisions by the supreme court holding unconstitutional the child labor tax law as "typical of the conduct of the federal judiciary, and particularly the supreme court, whenever congress had thought to enact progressive and humane legislation which was offensive to great financial interests," Senator LaFollette declared that the supreme tribunal of the country was "today the actual ruler of the American people."

They Outline Laws.

"The law is what they said it is," the Wisconsin senator continued, "and not what the people, through congress, enacts. Even the constitution of the United States is not what its plain terms declare, but what these nine men take it to be. In fact, five of the nine men are actually the supreme rulers, for, by a bare majority, the court has repeatedly overridden the will of the people."

"The nine lawyers who constitute the supreme court are placed in possession of this power for life, not by a vote of the people, but by a presidential appointment. Ex-president Taft was made chief justice by President Harding."

One Man's Machine.

"Thus a man was invested with the prestige and influence of chief justice by presidential appointment, who had been repudiated by the voters of the United States on his record. No one will contend that he could have been elected chief justice by a vote of the people. And yet Chief Justice Taft wrote the opin-

ion that annulled the child labor law and he wrote the Coronado Coal company decision. In making this observation, I level no criticism at the personnel of the court. I am dealing with fundamentals. "The time has come when we must put the ax to the root of this monstrous growth upon the body of our government. The usurped power of the federal court must be taken away and federal judges must be made responsive to the popular will."
